

UPT-W, UPT-I

Unipoint

60/UPT-W,UPT-I/250/0106/EN

Custom made. Full range of models. Internal services included.

- Custom made to suit each application
- Available as either a wall-type unit (UPT-W) or Island type (UPT-I)
- All internal pipework and technical services pre-assembled and tested off site. Fabrication only, can be provided if required.
- Co-ordinated interface with ventilation products
- Fully accessible for easy cleaning and maintenance
- Total segregation of M & E services
- A wide range of optional extras
- More versatility and serviceability than conventional methods
- 'Inbuilt' flexibility allowing ease of additions/changes
- Dedicated and or multi-serviced risers to suit each application

Application

Developed for the use in commercial kitchens, the Unipoint range of S.D U's provides an efficient and economical layout. Pre-assembled off site with all internal services, the Unipoint eliminates the co-ordination of other trades allowing minimal preparatory work in bringing mains services to a 'single point' of connection for final 'hook up'.

Consultant Specification

Services Distribution Unit Model Unipoint _____ having overall dimensions of _____ x 300 x 1250/ height to suit ventilation canopy/false or ventilated ceiling (Delete as required) Unit manufactured from 1.2mm thick (18g) stainless steel, fully formed, folded and welded construction.

Unit comprising:

Electrical riser complete with range of rotary type isolators and electrical distribution board (Delete as required)
